

INTRODUCING FUTURESHOP

Solutions for the store of tomorrow are here today.

We are physical designers-innovators that transform and **connect stores to the virtual shopping experience** known as **Phygital** (merging physical with the digital environment). Traditional **retail formats and digital**

behaviors have blurred, opening new business models that streamline consumer experience and operations. Today's disruption represents a time of opportunity as the pace of retail innovation and transformation

increases. **Cuhaci Peterson's capabilities solve for this changing landscape.**

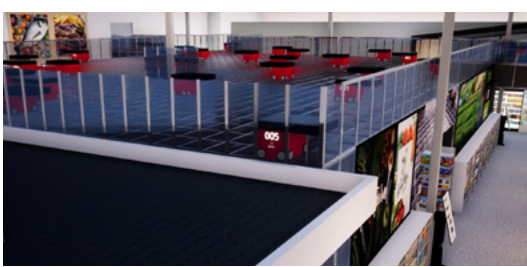

Learn more about retail innovation through FutureShop.

"Retail has reached an inflection point due to the pandemic, with the grocery industry in the epicenter. Consumers demand unlimited assortments of goods, immediate fulfillment to autonomous delivery, and reduced prices."

- Steven Duffy, SVP Grocery at Cuhaci Peterson
